

HAMZA HASSAN MIR

hamzahassanmir62@gmail.com

SUMMARY

Results-driven MERN Stack Developer with hands-on experience building production-ready full-stack web applications. Proficient in JavaScript, React.js, Node.js, Express.js, MongoDB, and Tailwind CSS. Completed a 6-week remote internship and a Full Stack AI Engineering fellowship. Passionate about building scalable, user-centric software solutions.

SKILLS

Languages: JavaScript, Python, HTML5, CSS3, SQL, PostgreSQL

Frontend: React.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Google OAuth, Nodemailer

WORK EXPERIENCE

DevTrain (SMC-Private) Limited | Mern Stack Intern

Apr 2025 - Jul 2025 Onsite

- Engineered full-stack web application features using React.js, Node.js, Express.js, and MongoDB, developing responsive UI components and backend functionality.
- Designed and integrated RESTful APIs, authentication workflows, and server-side business logic to deliver secure, dynamic application features.
- Analyzed and improved web performance using Google PageSpeed Insights, identifying bottlenecks and applying optimization techniques to enhance page load speed and responsiveness.
- Utilized Git/GitHub, reusable components, modular architecture, and debugging practices to maintain clean, scalable, and reliable codebases.

Full Stack AI Engineering Fellow | DevWeekends Fellowship Program

2026 Remote

- Engineered full-stack web applications through hands-on projects, implementing responsive frontends, backend services, RESTful APIs, authentication, and database-driven functionality.
- Leveraged AI-assisted development workflows for code generation, debugging, refactoring, testing, and technical problem-solving while following structured software-engineering practices.
- Applied Git/GitHub, version control, project documentation, iterative development, and code-quality practices to build and refine production-oriented applications.

Software Development Intern (Remote) | FLYRANK.AI

July 2026 – August 2026 Remote

- Developed responsive and reusable frontend components using React, JavaScript, HTML, and CSS.
- Leveraged AI-assisted development tools to enhance coding workflows, debugging, and development efficiency.
- Applied modern frontend practices to build clean, maintainable, and scalable user interfaces.
- Used Git and GitHub for version control, collaboration, and project management.
- Focused on UI quality, responsiveness, performance, and overall user experience.
- Collaborated within a development environment while gaining hands-on experience with modern AI-assisted software engineering workflows.

PROJECTS

Elegant Essentials — *React · Node.js · MongoDB · Redux Toolkit*

- Built a production-ready fashion e-commerce platform with a full storefront and admin dashboard.
- Implemented Google OAuth authentication for secure, streamlined user sign-in.
- Integrated real email delivery (Nodemailer) for order confirmations and notifications.
- Managed global state with Redux Toolkit, including persistent cart state across sessions.

eCommerce Store — *React · Node.js · MongoDB*

- Developed a production-ready e-commerce store with full storefront and admin dashboard functionality.
- Implemented persistent cart state and user session management.
- Designed a responsive UI for seamless shopping experience across devices.

EDUCATION

Bachelor of Science in Computer Science

Virtual University of Pakistan | Expected Graduation: 2028

CERTIFICATIONS

- **The Complete Full-Stack Web Development Bootcamp** – Dr. Angela Yu · Udemy
- **The Complete Python Pro Bootcamp**– Dr. Angela Yu · Udemy
- **Interactivity with JavaScript**– University of Michigan · Coursera
- **Python Data Structures**– University of Michigan · Coursera
- **Introduction to Python Programming**– University of Pennsylvania · Coursera
- **HTML and CSS in Depth**– Meta · Coursera
- **Introduction to SQL** – University of Michigan · Coursera
